This paper consists of THREE printed pages.

Candidate should check the question paper to ascertain that all pages are printed as indicated and that no questions are missing.

INSTRUCTIONS TO CANDIDATE:

1. You are required to construct an L shaped wooden bracket using half lap joint.
 - ii. The following are the details:
 - Overall size for each component is 250mm length, 75mm width and 30mm thick.
 - The size of the recessed portion for joining to the corresponding portion is 15mm by 75mm

- When joined together, the intersecting parts should have a combined thickness of 30mm

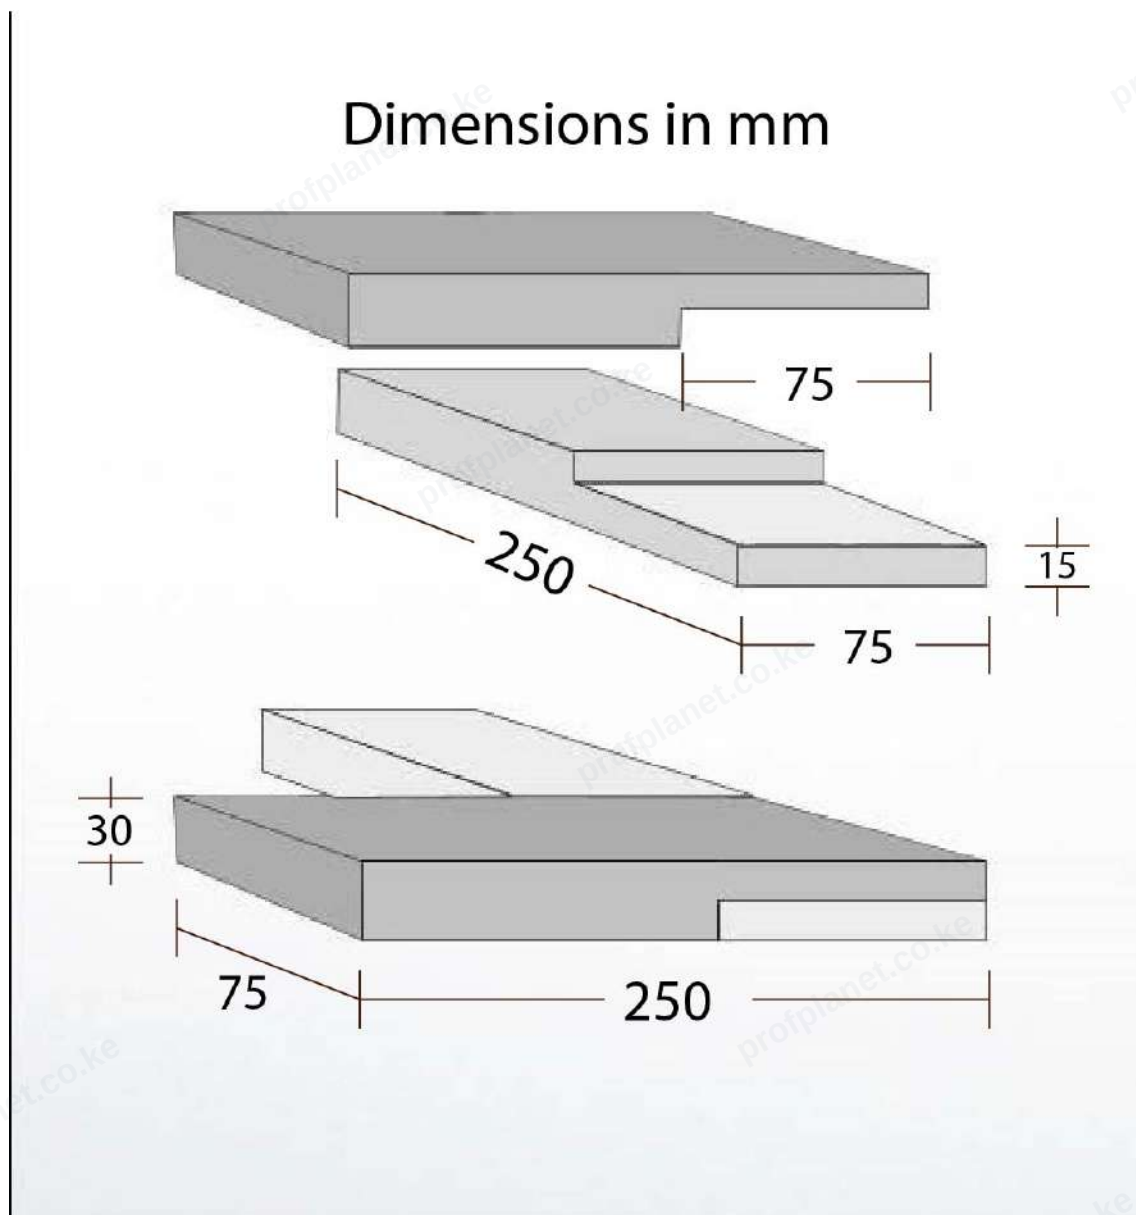

ii. Refer to the provided image below for guidance.

2. As per this practical assessment, carry out the following tasks:

Task 1. Cut each of the two pieces of wood to the correct length of 250mm

Task 2. Cut out of from each the two pieces recesses for the half lap joint

Task 3. Apply the provided wood glue and join the two pieces

1. You have been provided with the following resources for the practical tasks:

- 2pcs: Dried cypress wood size: Length 300mm, Width 75mm and thickness 30mm
