**Conduct Community Based Health Care**

**July/August 2025**

**TVET CURRICULUM DEVELOPMENT, ASSESSMENT AND CERTIFICATION  
COUNCIL (TVET CDACC)**

**PRACTICE ASSESSMENT**

**Time: 1 HOUR**

**INSTRUCTIONS TO CANDIDATE:**

1. You are the Community Health Assistant located in Tumaini Health Facility in Majirani Wema Community. During your routine health visits in the community, you are invited to attend to an ailing 59-month-old child in one of the households. The child's caregiver reports that the child has been persistently ill in recent days and that he (the child) presents with general body weakness, fever and occasional diarrhea. She (the caregiver) reports that the child was diagnosed with Moderate Malnutrition on the last clinical visit.

You are required to perform the following tasks,

**Task 1:** Take child's body temperature to confirm the fever.

**Task 2:** Assuming that the child has not improved nutritionally since the last clinic, conduct MUAC assessment on the child to confirm this nutritional diagnosis.

**Task 3:** Interpret the child's MUAC results

**Task 4:** Provide FIVE nutritional measures to the child's caregiver on moderate malnutrition

2. You have been provided with the following resources for the practical tasks:

- Simulated care giver
- A digital thermometer
- A child MUAC tape
- Fools caps
- Hand gloves
- Table
- Chair
- A baby dummy
